# BEETROOT

Beetroot, or just 'beets' to most people, is used as a food ingredient for both its great flavor and commercially for its deep purple color profile. Our supplier processes IQF beets as peeled, sliced, diced or finely chopped. Beet puree is also a very popular ingredient as its use continues to grow in the healthy / natural food and beverage segment for its nutritional content, flavor profile, texture, and color.

- ☒ Puree
- ☒ IQF Shredded
- ☒ IQF Diced
