POBLANO

PEPPER

Chile Relleno

The poblano pepper is one of the most versatile of all the chili peppers. Poblano peppers have a heat rating between a bell pepper and a jalapeno. Organic poblano peppers typically grow to about 6 or 7 inches long and have a heat rating of 1,000 to 2,000 Scoville units. Poblano peppers are most famous for 'chile rellenos' (stuffed chili peppers) and their use in authentic mole poblano sauces.

- ☒ Pepper Puree
- ☒ IQF Whole
